6. The following is an examiner's statement of reasons for allowance: As argued by the applicant's representative, the prior art of record taken alone or in combination with any other references fails to specifically teach a value update unit for updating the electronic value stored in the storage unit so as to show value information calculated based on the non-updatable {or invalid value as similarly claimed} value information corresponding to the identification information and the value information shown by the electronic value stored in the storage unit. These limitations in conjunction with other limitations in the claimed invention were not shown by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Oneda (U.S. 5,953,705) teaches ticketless system and processing method and memory medium storing its processing program.

Higashi et al. (US 2004/0249759) teaches content using apparatus.
